Parallel Parking Now In Effect On Main Street

Sanitary Conditions of Town Much Improved; Rev. W. E. Brown Offers Town A Tree; Proclaim June 2 as "Shut-In's Day."

Regular meeting of the council was held on Monday evening. Present Mayor Abousaffy, Councillors Cox, Dutil, Jenkins, Ramsay and Wilson.

Jimmy Evans was present to ask council's consideration towards improvement of the intersection between its premises and the Community hall. He was assured that this particular job was on this year's works' program. He asked that a concrete sidewalk be placed along the west side of his property the same as that done at the Empire hotel. He was informed that the Empire hotel had paid for this particular sidewalk and that should he wish to enter into a contract with the town on the same basis as the hotel the sidewalk would be put down. No decision was reached.

Proper parking of the Greyhound buses on main street was discussed and it was mutually agreed that Mr. Evans would advise the drivers on the proper method of parking in Coleman as desired by council.

Tony Lycka was present at council's request. He owes the town a bill of approximately \$2,000 and up to the present has done very little to pay it off. His account still increases monthly at the rate of \$30. The period of this debt covers 1940 to the present time. He has failed to pay his taxes and failed to pay the upkeep of two children in a provincial home.

He told council that he was just prepared to pay his taxes and only a certain amount of them. He refused to consider payment of the children's upkeep. As the discussion progressed, in which town solicitor Bannan took part, Lycka dared the council to take him again into court. Mayor Abousaffy told him that unless he paid the account with monthly installments the council would have no alternative but to accept the dare and take him in front of a judge. The discussion closed with Lycka being asked to meet Mr. Bannan in the latter's office on Tuesday afternoon and come to some financial arrangement towards the paying of the account.

It was agreed that henceforth no \$1 cheques will be issued to the firefighters. Council is anxious to build a permanent freighting unit and persons who just come once and then fail to return are serving no useful purpose to the town's fire-fighting force and it is felt that it is just \$1 thrown away. In future only cheques for a \$3 minimum will be issued in every two months' period. The principal stipulation is that a firefighter must attend at

least three practices in a two months' period to receive his cheque. Exceptions will be made for illness.

The MHO's report was received. It was revealed that there were still a few cases of measles in town. Two new cases of VD had been discovered. The general sanitation survey had shown an active improvement in the town's sanitary condition. Householders had co-operated well in "Clean-Up Week" by cleaning their yards and back alleys. The restaurants were found to be quite satisfactory.

A letter from Edison, Alberta, from the "Shut-In's" association was received urging the council's support in proclaiming Sunday, June 2, "Shut-In's" Day and of special observance. Council agreed to issue a proclamation and have it published in The Journal.

Rev. and Mrs. W. E. Brown are scheduled to leave Coleman on June 3. A pine tree nearby the Frank Graham residence has died and is about to be taken out of the ground. In order to mark their stay in Coleman Rev. Brown has asked council's permission to be allowed to replace the old one, council to determine the kind of tree which Rev. Brown specified should be a good one. Council accepted Rev. Brown's kind offer and will order a tree, Douglas Fir being mentioned.

Mayor Abousaffy was congratulated by council on his attempt to beautify the front of his home by planting several trees. Councillor Wilson advocated that a drive be started in 1947 to interest citizens to plant trees in front of their premises and also that Arbor Day be revived in Coleman.

The by-law which made parallel parking on main street compulsory was given third reading. The parallel parking now includes the entire main street starting just as soon as one turns the bluff at the east end of main street right to the Excel building. Notices will be printed advising motorists to park parallel. The streets will be improved as rapidly as possible in order to better accommodate the overflow traffic from main street.

The Relief Committee was authorized to investigate Mrs. Duplax claim for wood and coal.

It was agreed that during the months of June, July, August and September only one meeting a month will be held.

Councillor Cox brought to council's attention that two cell cots had neither mattresses nor blankets. He was authorized to get the necessary mattresses and two blankets.

The Jim Ewing residence on Second street has been given a new shingling job.

THEIR GLORY SHALL NEVER FADE

Above is an artist's drawing of the proposed memorial. It will be 15 feet high and the width of the base on the front face, 10 feet. The inscription tablet as shown will be of marble, and will be held in high relief by the granite-like mass of stone on which it is placed. Not shown on the drawing will be two bronze plaques which will be inserted on either of the sides, bearing the names of the fallen. A cement walk will be laid surrounding the monument as well as cement walks leading from the gate of the park and around the park.

The citizens of Coleman will be proud of such a memorial, after one or two years, when shrubbery has had a chance to fill out the picture, our memorial park will be a beautiful spot, and an everlasting tribute to the sons of Coleman who offered their lives on the altar of freedom.

In order to have the inscription meet with the wishes of as many people as possible, the Committee send in their ideas of the dedication

inscription. What would you like to have inscribed on the marble plate on the face of the cenotaph? The Committee feels that this is important. The monument will stand for hundreds of years, no one can foretell how long, to remind posterity of the terrible ordeals through which the free peoples of the world passed, during the years of the first and second Great Wars, and to present to the people of those future ages the names of those heroes who laid down their lives in order to preserve that freedom.

So long as a man is not forgotten he is still alive—let us remember this—let us carve the names of our fallen in stone, so that in truth they shall always live in the minds of those who follow after them—to insure that "Their Glory Shall Never Fade."

Please send your ideas regarding the inscription to Mr. Dan Daly, c/o Canadian Legion, Coleman, and please do so as soon as possible.

Blackstock To Hear Light And Water Case

To Be Heard Before Him Monday, May 27, Hearing Expected To Last At Least Two Days.

The Coleman Light and Water system which has been the prime topic of discussion during the past several years between the Town of Coleman and the Coleman Light & Water Co. is finally nearing a climax.

G. M. Blackstock, chairman of the Board of Public Commissioners, has set Monday, May 27, as the day on which he will hear the arguments of both sides. Following completion of the evidence he may give his decision as to what the system is worth. However, it is very likely that he will reserve his decision for a few days to allow him to study the evidence in greater detail.

Council authorized Mayor Abousaffy, Councillors Dutil, Ramsay and Jenkins to attend the hearings.

Mr. D. P. McDonald is the town solicitor.

CAR STOLEN

A 1938 Ford sedan, the property of Mark Sullivan, was stolen from in front of his home on Saturday night. Police found it a few hours later parked at the dance at the lake. A local youth was scheduled to appear in front of Magistrate Antroub on Wednesday afternoon.

New Train Schedule Released

Southern Alberta To Be Given Two Locals Daily; No. 12 To Pass Through Here At 5:11 a.m.

The Journal has secured a CPR train schedule which it has, been assured is the official schedule which will be released shortly.

The WEST BOUND No. 11 train will arrive in Coleman at 1:55 a.m. which is 30 minutes later than at the present time. It connects with the Vancouver to Calgary train and will bring Vancouver passengers to the Pass towns 24 hours earlier than the previous schedule.

The EAST BOUND No. 12 train will arrive in Coleman at 5:11 a.m. A local No. 681 will arrive in Coleman from the east at 1:15 noon coming from Medicine Hat and will continue on to York where it will connect with the Spokane trains. It will be everyday but Sunday.

A local No. 682 will arrive from the west at 2:35 p.m. and will connect with trains at Lethbridge, Calgary and Medicine Hat. Daily with the exception of Sundays.

SOMEONE HIT A HORSE

Some motor vehicle must have collided with a big sturdy horse on Saturday night or Sunday morning at Sentinel as the dead horse was to be seen by motorists on Sunday afternoon, laying stiff-legged in the ditch.

JOAN PRICE KNOCKED DOWN BY CAR ON BLAIRMORE ROAD

Joan Price, 11-year-old daughter of Mr. and Mrs. Jack Price, was knocked down by a car on Blairmore Road between 4:30 and 5 p.m. Monday while walking home from school.

It is reported that she was dragged about 20 feet and suffered a wound to her left knee in addition to severe cuts and bruises. She was immediately brought to the hospital where she was operated upon at 6 p.m. for the knee wound.

RCMP are investigating the accident.

Bishop Carroll Visited Holy Ghost Church Sunday

On Sunday afternoon, May 19, Most Reverend Francis P. Carroll D.D. Bishop of Calgary administered the Sacrament of Confirmation in Holy Ghost church, Coleman.

Led by Cross-bearers and two Acolytes, seventy-two candidates for confirmation formed in procession from the Rectory to the church through a guard of honor composed of the men of the parish. At the rear of the procession came Rev. Leo Sullivan, Pastor of Holy Ghost church, vested in Surplice and Cope and immediately proceeding the Bishops and his assistants.

His Excellency gave a very inspiring sermon on the importance of confirmation stressing the influence of the Holy Ghost on our individual lives and in the church as a whole. Afterwards in his kindly and fatherly manner, the Bishop questioned the children to be confirmed in the knowledge of (Continued on Page 4)

Victoria Day Celebration At Bellevue

Town Going All Out to Make it a Record Breaking Event; Sports, Parade, Revue.

Bellevue is girding itself in preparation for the hundreds of Pass visitors expected to motor into town to attend the annual Victoria Day show.

The schedule will start at 10 a.m. with juvenile sports and continue through to the wee hours of Saturday morning when the Arcadians' orchestra plays "Home, Sweet, Home."

The feature attractions are the big parade at 1 p.m., when decorated floats, cars, etc. will be judged, followed by a stage revue in the arena when the May Queen will be crowned and reign as Queen of May. A musical and dancing program has been arranged and a pleasant two hours or more is assured those who crowd their way into the arena.

Bellevue Lions are the sponsors of the big show and are out to give all the financial aid at their command towards the installation of an artificial ice plant in the Bellevue arena.

Funeral Of Frank Alampi Held On Sunday

Died at Pincher Creek; Interment in Coleman Catholic Cemetery.

The funeral of Frank Alampi, 25, who died at Pincher Creek on Friday was held here on Sunday afternoon. Services were held in Holy Ghost church with Rev. Father Leo Sullivan conducting, interment taking place in Coleman Catholic Cemetery.

Death of deceased came as a shock as he was well known throughout the community. Possessed of a quiet nature he rarely took part in any activity. He had been held in high esteem by his fellow workers.

The Italian Society and the Ladies Italian Society were strongly represented at the funeral which was attended by a large number of friends.

Fallbearers included L. A. Caroe, Steve Mysniuk, Jimmy Walker, Jimmy Lloyd, A. Panek and Jack Nelson.

NEW SIDEWALK BEING LAID

Town foreman Joe Malanchuk started early Monday morning on the town's ambitious sidewalk program. He had his workmen rip up the concrete sidewalk from Modern Electric to the Grand Union hotel on main street and plans on having a new concrete sidewalk down by Thursday evening.

Proclamation

The Council of the Town of Coleman hereby proclaim Sunday, June 2nd, as SHUT-IN'S DAY and request the citizens of Coleman to visit or remember by some means those who are compelled to remain indoors by reason of sickness or disability.

TOWN COUNCIL

Important Notice To Parents

A number of young boys are guilty of carrying fire arms and shooting indiscriminately both in town and out.

A STRAY BULLET WILL MOST CERTAINLY LODGE ITSELF IN A CITIZEN SOONER OR LATER. No boy fourteen years or under is permitted by law to carry fire arms.

Any youth firing a gun indiscriminately inside the Town of Coleman will be prosecuted. The practice MUST be stopped.

WM. ANTLE, Chief of Police.

Turhan BEY

The night you will never forget!!!

The love story of Aesop and the Persian Princess in technicolor.

SAY EMPIRE DEFENCE NO LONGER NEEDS HUGE ARMY BECAUSE OF ATOMIC ENERGY

LONDON.—Britain's dire need for post-war trade and realization that the atom bomb has altered military concepts are the two main factors behind the Labor government's special epochal decision to quit Egypt and India.

This was made clear as the result of conversations with advisers to Prime Minister Attlee and spokesmen for the foreign office and Dominion heads.

From Mr. Attlee down through the cabinet, the chiefs of staff and empire leaders to the ranks of the Labor party there is this explanation:

Empire defence because of atomic power no longer is a question of a huge army. Maintenance of troops in such places as Egypt and India is not worth the risk of getting involved in political warfare that might stir up economic boycott.

"It was by far the best course to negotiate a new pact with Egypt, and the chances are we will get a better pact on paper implemented by Egyptian good will," said one high-ranking British official.

"Markets should pick up in the new atmosphere, for there was the possibility if we did not get out of the country the Egyptians might boycott British goods."

Much the same considerations applied to the decision to offer India independence, although Mr. Attlee expressed hope the Indians will decide to remain within the British Commonwealth.

Members of the government were agreed that Britain could stay on in India only with difficulty. Britain, as far as India is concerned, is a debtor country and it is of paramount importance to Britain to develop Indian trade.

U.N. PROPOSALS

More Privacy In Deliberations Has Been Suggested

NEW YORK.—Security council members were studying recommendations from their rules experts which would give the council ultra-privacy in deliberations at any time and the power to withhold selected "top secret" intelligence from the 46 United Nations not represented in the council.

The experts' proposals, and a United States resolution whose adoption would block Albania's immediate effort toward membership in the U.N., came up for debate in the council here.

In the new section of 34 rules for adoption by the council the committee of experts on procedure proposed that the U.N.'s peacekeeping arm should meet privately whenever it desired and also adopt a classification of information along military intelligence lines.

The membership of the experts' committee is identical, nation by nation, with the makeup of the 11-nation security council, and it was expected the council would adopt the rules along the lines proposed by the committee.

The proposed rules provide that the council, in meeting privately, may order the record restricted to one "single copy alone" which would be entrusted to the U.N. secretary-general for safekeeping, but "the security council may at any time grant access to this record to authorized representatives of other members of the U.N."

A LUCKY ESCAPE

Vancouver Veteran Was Struck By 34,000-Volt Electric Charge

VANCOUVER.—Fred Ferand, 26-year-old veteran, lived through an electric shock which was 15 times more powerful than the current used in an electric chair.

A 34,000-volt electric charge struck him while he was repairing an aerial on the roof of his home when he threw a wire across to the roof of a nearby building where it caught in a high tension wire.

The shock hurled Ferand across the roof, ripped a shoe from his foot and started a fire in a nearby house. He was given inhalator treatment by firemen and taken to hospital suffering from burns on his arms, side, legs and feet. His condition is reported as "fairly good."

Doctors say the fact that the aerial was found probably saved Ferand's life.

CONSERVATION PLAN

Mayor Of New York Appeals To Residents To Cut Down On Food

NEW YORK.—Mayor William O'Dwyer has appealed to New York residents to refrain from eating or serving, bread, cakes, pies, pastries and other wheat and cereal products at evening meals on Tuesday, Wednesday and Thursday in each week. The appeal in the form of a proclamation issued at city hall, was directed to restaurants, hotels and other public eating places as well as those who eat at home.

DEBT WAS PAID

LONDON.—Four years ago, Carol Gibbons, Savoy Hotel band leader, signed a dinner bill for two airmen who had run out of leave funds. He has just received a cheque from two flight lieutenants covering the bill plus interest.

COMMUNIST TROOPS REPORTED TO HAVE CUT THE MUKDEN RAILWAY LINE IN MANCHURIA

MUKDEN.—A force of 10,000 to 20,000 Communist troops was reported to have cut the Tientsin-Mukden railway—lifeline of National forces in Manchuria—at two points outside the Great Wall northeast of Shanghai.

The report came as semi-official Russian sources disclosed that Soviet troops have completely withdrawn from Manchuria, except for Port Arthur, where they remain under terms of the Russo-Chinese treaty.

The Communist forces, according to Nationalist sources, encircled the rail towns of Chienao and Kaoling, 15 and 25 miles northeast of the Great Wall, and have succeeded in cutting off rail service on the vital supply route.

Two rail bridges between Chienao and Kaoling were blown up, it was reported.

The Communist forces were reported pushing south toward Shanghai, just inside the Great Wall, and north toward Sulchuan, another rail station 31 miles northeast of Shanghai.

They were reported to be well armed and equipped with artillery.

Press dispatches from Tangshan, midway between Tientsin and Shanghai, said that telephone communications with Shanghai have been cut.

"PARIS IN THE SPRING"

—Barrow in the Manchester Union.

FOR HOME TROOPS

Pensions May Now Be Granted For Disability Or Death

OTTAWA.—Veterans Minister Mackenzie announced at a session of the commons veterans' committee that the government has accepted the principle that pensions may be granted for disability or death incurred on service either at home or abroad.

Previously, the principle applied only to personnel on service outside of Canada.

The committee unanimously endorsed a motion by David Croil (L.—Toronto Spadina) that the insurance principle be restored by order-in-council rather than await the prolonged process of parliamentary approval. The sooner the legislation was passed the sooner the payments would start to the men requiring pensions.

Mr. Mackenzie said the order-in-council would be passed, but the new provision would not be retroactive as to payments. There were 14,000 cases in this category.

WAR MEMORIAL

NAIROBI, Kenya.—Nairobi's municipal council has stated that in their view the best war memorial for Kenya would be a fund for the provision of bursaries for children of all races. The bursaries would enable children to obtain higher education outside Kenya if necessary.

PROTECT WILD FOWL

OTTAWA.—North America's duck population is decreasing and the bag limit for ducks probably will be lowered next fall, a mines and resources department source disclosed.

WILL MAKE EXTENSIVE GEOLOGICAL SURVEYS THIS SUMMER IN NORTHERN AREAS

OTTAWA.—An intensified probing of the wrinkles on Canada's geological face is scheduled for this summer, it was disclosed in an announcement by the mines department of formation of 76 geological and topographical parties for field work an increase of 25 over last year.

Projects planned range from further surveys of radio-active ores in the Great Bear lake, Camsell river and Lake Athabasca districts to archaeological investigation of the Yukon routes believed followed by aborigines from Siberia migrating to America.

The geological program, designed to provide prospectors and exploration companies with useful information in the search for new sources of metallic minerals and petroleum, includes 40 parties.

Six will work in the Northwest Territories, three in Yukon, six in British Columbia, eight in Alberta, three in Saskatchewan, three in Manitoba, two in Ontario, six in Quebec, one in New Brunswick and two in Nova Scotia.

The topographical survey will have 36 parties in the field. Twelve will work in New Brunswick, 11 in Nova Scotia, two in Quebec, three in Ontario, one in Saskatchewan, four in Alberta and three in the Northwest Territories.

The national museum also will have four parties out—two in Quebec, one in Yukon and one in Alberta and British Columbia.

In Saskatchewan detailed investigations are planned for radio-active ore bodies in the Lake Athabasca area near the Box mine, while the Flin Flon area will be the focal point of geological investigations in Manitoba.

HAS CHARGE OF MEYER

Warden at Dorchester penitentiary. Col. George T. Goddard is the keeper of S.S. Maj.-Gen. Kurt Meyer, top German panzer division commander now serving his life sentence at the Canadian prison. Col. Goddard, seen here, is a veteran of both world wars. He served as army provost marshal.

FISH FILLING PLANT

PRINCE ALBERT, Sask.—A portable quick-freezing and filleting plant will be built at Meadow Lake this summer it was learned from James Gray, secretary of the Saskatchewan fish board. The plant will fillet and freeze whitefish and should be able to handle 1,000 pounds a day. The fish will be for local consumption and export trade.

FOREIGN MINISTERS OF THE FOUR MAJOR ALLIED POWERS TO MEET AGAIN ON JUNE 15

PARIS.—The foreign ministers of the four major allied powers agreed to meet again June 15.

In deciding on the month-long adjournment, the ministers also accepted a proposal by State Secretary Byrnes of the United States to attempt in the interim to work out their present disagreements.

Reported by his associates as "very discouraged" over the results of the conference, Mr. Byrnes lost in his attempt to have the foreign ministers

set a definite date now for the European peace conference and to have the Austrian treaty included on the conference agenda. The American informants said Russia objected to both.

However, Foreign Minister Molotov of Russia and the others agreed to revise the terms of the Italian armistice.

Reuters said that the German question would be discussed and the revised Italian armistice would be officially initiated by the foreign ministers prior to signature in Rome by Premier Alcide de Gasperi and by the supreme allied commander in the Mediterranean.

Mr. Byrnes, at a conference session, proposed that American, British, Russian and French representatives begin immediately to draft terms for a German treaty to be presented to a peace conference on Germany next Nov. 12, American sources said, but no action was taken.

Mr. Molotov, Foreign Minister Bidault of France and Foreign Secretary Bevin of Britain were said to have asked time to study Mr. Byrnes proposal for a German peace conference.

Mr. Byrnes' proposal was made in a conference session devoted entirely to German problems, during which France repeated her demands for severance of the Ruhr and Rhineland and for French control of the Saar. The discussion also brought a clash between Mr. Bevin and Mr. Molotov on British occupation policies in the Ruhr.

ART EXHIBITION

Pictures By Canadian War Artists On Display In Ottawa

OTTAWA.—A comprehensive, final show of about 300 paintings by Canadian war artists is on display at the national gallery. It includes the work of Capt. Campbell Tinning formerly of Regina.

Opened by the governor-general, Viscount Alexander, who was well equipped to appraise it as art and as a picture history of the Canadian part in the war, the exhibition will be shown in Montreal and other large cities. The catalogue lists 315 pictures but not all could be hung in the space available.

WILL BE DELAYED

Finance Minister Likely To Bring Down Budget In June

OTTAWA.—The budget is now not expected to be brought down in the house until mid-June. It was learned here from reliable sources.

It is understood the government will wait until Prime Minister Mackenzie is back in the house before introducing the budget. The prime minister is expected to return to Ottawa from his trip overseas about June 12 or 15.

SELLS \$100,000 CLAIM.—A good companion, good cook, but no party girl is the kind of wife Ulric J. "Spud" Arsenault, left, is hankering to have since he sold his Yellowknife claim for \$100,000. "Ticky" and Bill MacDonald are good friends. Spud gave Bill \$25,000 to show his esteem. Spud lives in a nice pine cabin on an island in Yellowknife bay, and Spud is acknowledged by one and all to be the neatest bachelor in the north. Once a farm boy in Prince Edward Island, he has been prospecting for 25 years. He's made eight discoveries. What he now wants to do is to "settle down" to a quieter life in Edmonton, so I could keep in touch with things in the north."

NOTES AND COMMENTS

SIDEWALK NEEDED

Down through the years there has been fairly constant agitation here for a sidewalk alongside No. 3 highway as it winds its way along Blairmore Road. Monday evening a young child was knocked down by a car and her injuries, though painful, could have been of a much more serious nature.

Must someone be maimed for life or killed before the Department of Public Works will rectify the situation? On this part of the highway scores of cars and scores of pedestrians travel it each day. The pedestrians have no other alternative but to travel along the highway and expose themselves to possible accident from oncoming cars.

The same applies to the Frank side. Not even a guard rail is erected to prevent cars from running off the precipitous sides of some sections of the road. Several cars have gone over and had their drivers packed to the hospital, but still the Public Works Dept. refuses to put up a guard rail. The

expenditure of a few hundred dollars might be instrumental in saving a life.

SENSELESS DRIVING

There are some store delivery truck drivers who show little if any sense of decency when driving throughout the town. Especially in wet weather is this so when some are guilty of plowing through pools of water giving no heed to pedestrians who may happen to be near by. On Monday morning one driver was guilty of plowing through a long deep pool of water on the road leading past the bluff to West Coleman. Two ladies walking inside the guard rail were splashed mercilessly while the driver looked neither to left nor right, but kept his truck heading for town.

SPEEDING TRUCKS

Writing of speeding trucks it has been noted in recent weeks that heavy lumber trucks, particularly, have been trying to turn main

street into a speedway. Those trucks transporting heavy timbers are a menace to ordinary traffic when passing though at their present speeds and should be sidetracked to secondary streets. Now that it appears likely that the Municipal hospital will begin construction this spring thought should be given towards constructing a bridge over the Nez Perce creek at the west end of second street and sidetracking heavily loaded freight vehicles along second street instead of main street which is constantly packed with passenger cars and delivery trucks. Safety first should always be one of the principal aims of the town's traffic committee.

IT HAS STARTED ALREADY

Year after year scores of motorists coming in from the west are bewildered by our "network" of streets and are at a loss where to turn into main street and thence through the town on their way east.

Tuesday afternoon we were accosted by a tourist from Washington who enquired where to turn into main street. Before very long we will again see them on fourth, fifth and sixth streets utterly lost as they vainly seek their way out of town and back on the number 3 highway.

The road signs recently erected are too small, too amateurish, and one is not in the proper place. Tourists are passing the sign on second street without seeing it.

The time has long since passed when little heed was given to the difficulties of the tourist. Let's put up some modern markers and in places where they cannot possibly be missed. We have been asked by both the federal and provincial governments to extend a welcoming hand to the tourist this year. Let's start by showing him the way into our town.

COLEMAN'S STAMPEDE

The chips are down, the gamble is on.

Coleman Board of Trade, still in its infancy, has tackled one of the most stupendous jobs any organization could tackle in a determined effort to save Coleman from losing its centre of community activity in the winter time... the skating rink.

No fair minded citizen will deny that should Coleman lose its skating arena it has lost possibly its greatest social asset. To avoid this the board of trade has set itself the task of sponsoring a stampede, which if successful, should net the Sports Association several thousands of dollars to be spent on either a new arena or improvements on the old arena depending which is the best course to follow. Business and professional men have signified their willingness to take off their coats and roll up their sleeves and tackle the big job. No matter how hard they work however their success depends on the wholehearted support of the community at large. That support can largely be shown by a record attendance at the stampede. By attending the stampede you insure winter enjoyment for your own kiddies for years to come.

Bishop Carroll

(Continued from Page 1)

Catholic Doctrine, so vitally necessary in leading a good Catholic life.

In concluding his discourse His Excellency paid well deserved tribute to Father Sullivan of Coleman for his Priestly zeal and splendid work in the Holy Ghost Parish. His Excellency also extolled the Sisters of St. Martha of Blairmore who in preparing this large class for confirmation manifested once again their self sacrificing zeal and untiring devotion to the children and people of the parishes of Blairmore, Bellevue, Coleman and Hilderest.

His Excellency then vested in Cope and Miter and bearing in his hand the Crozier symbol of his office as chief Shepherd of Souls in Calgary Diocese conferred the holy Sacrament of Confirmation.

The Sacred Ceremony was brought to a close by Pontifical Benediction of the Most Blessed Sacrament. Assisting the Bishop were the following members of the Clergy: Very Reverend M. A. Harrington VF of Blairmore, Rev. D. T. Sullivan, Vice Chancellor of the Diocese of Calgary and Secretary to His Excellency, Rev. L. Bartley, of Cowley and Rev. A. Anderson of Bellevue.

A word of praise must be said on behalf of the Coleman choir who under the capable direction of Mrs. Frances Maurer, sang the liturgical music proper to the Sacrament of Confirmation and the hymns of

Benediction. Their excellent rendition of the music added a last touch to an entirely inspiring ceremony.

After confirmation, His Excellency went out among the people meeting them individually and having informal chats with them. The congregation was delighted to have the honor and pleasure of meeting the Bishop in this way and appreciated his kindness in so doing. Many in the large gathering had cameras and used them to good advantage in taking many photos of the Bishop and the newly confirmed.

MECHANIZE MINING

An experiment is now under way at Acadia Coal Co. mines to determine whether mechanization can boost Nova Scotia's sagging production. Acadia, subsidiary of Nova Scotia Steel & Coal Co. (Duce) is using the water-filled McBean vein for its first try. Capital backing for the project came \$730,000 from the Dominion government and \$200,000 from Dominion Steel & Coal Co., reports The Financial Post.

Plan now is to pump out the McBean mine, install mechanical loaders at the working face to load the coal onto electrical conveyors. If successful, the new equipment will likely mark the end of pick and shovel mining in Nova Scotia. But mining men claim that to get widespread acceptance the interiors of coal mines will have to be enlarged to accommodate the equipment. Right now some mines are so heavily timbered that it is claimed miners have difficulty wielding picks.

Important from a company standpoint is the increased per man output. In Nova Scotia now production averages 1.6 tons a day per man while the average U.S. miner turns out six tons. And while mining officials say it is an impossible hope for Nova Scotia to ever reach the U. S. production rate they expect mechanization will trim expenses enough to make mining a more profitable undertaking.

PUBLIC WORKS CREW REPAIRING PROVINCIAL ROADS HERE

A Department of Public Works

crew, under the supervision of Joe Hamnerhan is in Coleman at the present time and are scheduled to make repairs to roads in Willow Drive and East Coleman.

ENJOY CAREFREE MOTORING IN THE MONTHS AHEAD!

If you are planning a long car trip this summer now is the time to have us inspect your engine.

Have re-bore jobs, new rings, etc., done now before the summer rush sets in. Our mechanical department is tops. Try them now when they will be able to give your car proper attention.

The Farm Calls

Farms offer Canadians a chance... and a challenge!

They offer a chance for IMMEDIATE JOBS—STEADY JOBS too.

They also offer jobs for experienced farm workers—for mechanically trained workers—and any others able to help seasonally.

Then, there is the challenge to fight off starvation threatening many nations.

L.P.R. Lauers Chairs for Conjo.

FIT THE BODY: Scientifically recorded measurements of 8,607 persons in seated posture was the basis of these Sleepy Hollow chairs, best ever devised for comfort, which the Canadian Pacific Railway is installing in 35 new air-conditioned early in 1947. Built to "give" with body curves and distribute weight properly the new chair is sometimes referred to as the Hooton chair, because of research done by Dr. Earnest Hooton of Harvard University whose experts took the measurements of the better than three thousand volunteers a railway terminals of two of America's largest cities. For shoe-shedders an adjustable footrest is

provided, (inset), it having been determined women like to ride in stocking feet as they nap. Cost of the new chairs alone will be more than \$200,000, with this figure being part of a four million-dollar appropriation, the first large passenger equipment order it has been possible to make since 1939, with double bedroom-roomette cars and express-harage cars as well as passenger coaches included in the appropriation. The Canadian Pacific is the first railway in the Dominion to approve the new chairs and it will further pioneer in the 35 new coaches with the installation of the first electrically refrigerated water coolers on a Canadian road.

New...Easy...Low Cost ROOF PROTECTION

with IMPERIAL

ROOF PUTTY FLUX

Here's a new product from Imperial Oil Limited that saves money and serves many useful purposes around the farm! Imperial Roof Putty Flux is the ideal coating for metal or bare top felt roofs... makes them waterproof, protects against the weathering action of the sun's rays, ice and snow. Made from a high-grade asphalt base, Putty Flux is useful, too, for coating the inside of cisterns, water troughs and tanks to prevent leakage.

Easily applied with a roofer's brush, or by hand paint brush on small areas. Comes ready to use, no heating required in normal summer weather. Covers 100-150 square feet per Imperial gallon.

For those Spring "fix up" and repair jobs, ask your Imperial Oil Agent about the new Roof Putty Flux in the handy, economical 5-gallon drum.

Police Report For March And April

Court cases for the month of April and the latter part of March.

4. for being intoxicated in a public place.
1. for having liquor in a place other than his own residence.
1. for fighting in a public place.
1. for assault.
1. for damage to property.
1. for beating board bill. This man was brought back from Lethbridge.
1. for theft of two pairs of pants. Ten cases in all. All liquor fines will be paid to the Town of Coleman when applied for.

One of the liquor cases went to Lethbridge jail for one month. The theft of the pants occurred in a hotel in town. The man came into court and pleaded guilty to the theft.

The man for beating his board bill went to Lethbridge and started to work. I received a complaint from a restaurant proprietor of Coleman. The proprietor laid a charge against this man. I had to phone the City Police to have the accused arrested. The accused was escorted back to Coleman by the R.C.M. Police, of Blairmore, and on April the 18 came before the Magistrate and was found guilty and had to pay the board bill and the cost of the court.

March 28, 1946.

Received a phone call from 5th Street saying that there was a man around peeping in the windows. I was at the town office at the time of the phone call. I went home and got my car out of the garage, went to 5th street and saw Mrs. Ginirario. She told me that someone had come up on the front verandah and knocked on the window, and then she heard someone at the rear of the house. I drove all around the flat and through the alleys but saw no one. Later that night I saw Mrs. Ginirario she admitted she did not know if the person was a man or a boy as she did not see them.

Saturday night, April 6, I was on duty from 9 p.m. until 3:30 a.m. Sunday morning, April 7, On Sunday morning, April 7, at 1:30 a.m. Harold Maslen and Joe Jenkins came to the office and told me that they had received information that a man was in West Coleman and acting strange. They looked around

the alleys and found a man at the rear of Johnston property. His excuse was that he was over in West Coleman looking for a young MacDonald who owed him money. Later the same morning this man came to the office; Maslen and Jenkins were there. The fellow got a severe calling down and I believe he will stay away from West Coleman in the future.

April 21.

On Easter Sunday, Sam Sagoff reported to me that his garage was broken into. I went down to Sagoff's. Some one had tore the lock and hasp off the door and went in the garage. Nothing was stolen. Some driver must have run short of gasoline during the night.

I might say that the dog licenses are slow coming in this year. Apparently I will have to prosecute some of them in order to hurry the others along.

The town is being pepped up by some new men coming into town. These are mostly all young men and all stay at Mrs. Root's Boarding Houses. She has three places for these boys to sleep in and I am not sure how two of these places are controlled. There has not been any complaints as yet for rowdiness, but it keeps me fairly busy checking up and hearing Mrs. Root's complaints. She has sworn out warrants to apprehend two men for beating board bills, but to date these men have not been picked up. Cannot locate them.

The town has been fairly free of transients this spring although there is an odd one around but do not stay very long.

REWARD your family by serving delicious Maxwell House Coffee at mealtimes. Maxwell House has more delicious flavor — fuller, more satisfying body — because it contains choice Latin-American coffees.

Flax Coming Into Its Own

Flax, the forgotten crop on prairie farms for many years, is coming into its own as Western farmers re-discover its many advantages. They have learned that flax grows best on the prairies, that it is a good profitable crop, that it is hedged by few government controls placed on other grains, and that with the increasing demand for flaxseed, both domestically and abroad, it is remarkably easy to sell. Flax is a crop with a bright future, as the demand is growing beyond all present hopes of supply, and with proper planning flax should be one of the most profitable crops prairie farmers can grow.

Good cultural practices combined with careful planning take the former risk out of flax-growing, and recent developments in weed and disease control have contributed further to its successful growing. As with any specialized crop previous planning pays and the careful choice of field, crop rotation, seed bed, variety of flax planted, date of planting and control of insects and weeds pay big dividends in the long run, with an easy to sell, continuously marketable crop. When this careful planning and correct cultural practices are employed flax should earn a prominent, profitable place in every farm program.

Flax products are on the increase. Linseed oil is required in paint for buildings and machinery, in linoleum and oilcloth, printer's ink, in the production of rubber, for medicinal uses for livestock and as an edible oil in the manufacture of shortenings. Oil cake and oil cake meal are used as feed for livestock and flax-straw in the manufacture of cigarette, documentary and currency paper.

It will take millions more bushels of flax to satisfy the vast manufacturing needs of America alone, and even before these have been met Europe is clamoring for flax from Western Canadian farms.

First IN THE FIELD

● Since June 1936 we have been giving the public a special Personal Loan service, based on character and regularity of earnings or other income—the first Canadian bank to offer such a service.

In that period we have made well over half a million loans to meet such requirements as:

Taxes	House and Mortgage Payments
Home Improvements	Educational Courses
Medical and Dental Treatment	Unforeseen Expenses

Repayment by monthly deposits

Life Insurance arranged and paid for by the Bank covers all loans in good standing.

Application for a Personal Loan may be made at any branch of

Pass Fish And Game Assoc. To Have Busy Year

A meeting of the executives of all clubs of the above Association was held in Bellevue on Sunday, April 28, at 8 p.m.

A full two hours was taken up on debate and discussion on the condition of our streams as to the depleted fish population. It was fully agreed by all present that it was no use putting young fish into waters that were open for fishing. Hence it was decided to place the bulk of fry or fingerlings received this year in the river between Coleman and Crows Nest Lake and close this section to all fishing this year.

Smaller portions to be placed at other points lower down the Pass. Such points to be examined and if found suitable to be stocked.

Revealing that something very drastic will have to be done to conserve fish at this time, it was decided to try and have all waters north of the Gap on the North Fork River closed on the fifteenth day of September, to all fishing.

This would be one month earlier than the usual closing date. At this season of the year the fish population, that is left in this area, are heading up to the headwaters, where they will remain during the winter, and then spawn there in the spring. During the last month of the fishing season those fish, when they gather in the larger holes in our lower headwaters, are very easy to catch, leaving nothing in that area for the following year. This is the reason for the above request to close this area.

The Rearing Ponds were fully gone into and all angles of this project were thrashed out. It was decided to go ahead with same. Promise had been made to some members of the Association that they would be given the use of a Drag Line to do this work, and had this been received it would have greatly cut down the cost of construction. However this help was withdrawn at the last minute, so that the committee in charge will have to look elsewhere for a caterpillar to tear out the bottoms and line up the dams of these ponds.

The distribution of young pheasants was next dealt with, and all arrangements for transportation to the Pass and then out into the ground where they are to be liberated was made. This matter was mainly in the hands of the Hillcrest Club, some members of this club having handled the first batch turned loose in this area, and they made a splendid job of same.

The introduction of Course Fish into Lee lake was also discussed, Pike and Perch being the two species mentioned, and it is likely that after further study on this matter this will be done.

In the closing minutes of the meeting it was stressed for the need to raise considerable money to cover cost of Rearing Ponds. Organizing for big memberships in all Pass Clubs being the main idea of raising this money.

Empire Day Message From the President The Earl of Gowrie

VC, PC, GCMG, CB, DSO.

This first Empire Day after the end of a great world war, which threatened the structure of human society and embittered human relationships, finds us in a mood in which we may easily become discouraged, losing faith and hope in those ideals which inspired our great war effort.

Now the dangers of war are removed it is imperative to appreciate that other dangers, though less apparent, still threaten the peace of the world. Fear, suspicion, revenge and starvation stalk among the peoples of the earth. The future confronts us with the challenge as to whether material power and economic necessity are to mould our destiny or whether, by conscious endeavor, the spirit of man can govern events and direct our forward march toward the highest attainment of human welfare and universal goodwill.

Unless our great Victory inspires us to make a fresh start to meet the desperate human need for peace and security, based upon friendship between all races and creeds of mankind, our sacrifice and suffering will have been in vain. An even greater effort, therefore, is now demanded from each one of us to exercise patience and stern resolution during

the coming years of reconstruction. By these achievements will the character of the British peoples be judged.

What interpretation of human relationships does the British Empire offer to this bewildered and distracted world? The loyalty and unity so strikingly manifested by our Empire peoples, of many races and creeds, is proof that mutual understanding and co-operation between nations are within the reach of all mankind. We have shown that by tolerance, patience and self-restraint, it is possible for nations to strive together for common ideals of freedom and mutual well-being. In the universal acceptance of these principles lies our hope for the future.

The celebration of this Empire Day is therefore the dedication to faithful service for our Empire in its great task of promoting world peace and goodwill and in overcoming the destruction of our civilization.

May God grant us wisdom and sincerity in all our endeavors.

FAREWELL PARTY

A surprise farewell party was held at the home of Mr. and Mrs. Steve Hataleik on Saturday, April 27, in honor of Bohumil Rucka, who has since left for the Peace River to reside.

Games, singing and dancing were enjoyed followed by a dainty lunch served by friends.

The honored guest was presented with a handsome wrist watch by Mr. Louis Kratky on behalf of the assembled guests for which he expressed his sincere thanks. The party continued until mid-night.

T.B. QUESTIONS

ANSWERED BY THE
ALBERTA TUBERCULOSIS
ASSOCIATION
EDITED BY F. H. HEISE, M.D.
National Tuberculosis Assn.

Q. What is a normal pulse?

A. This depends on the sex, age and mental make-up of the patient. It is more rapid in the young, in the nervous and in women. In young adult life it should be between 70 and 85 beats per minute after one-half hour of mental and physical rest.

Q. What causes a rapid pulse?

A. Poisons absorbed from disease affect the heart, causing it to beat faster, or there may be rapid breathing due to the extent of the disease, which would cause a fast pulse. Other causes may be emotional disturbances, gastric disturbances, exercise, heat, etc.

Q. What is meant by the physical signs of TB?

A. The physical signs of tuberculosis are those which are heard by thumping the chest and listening through the stethoscope, or such deviations from normal as may be detected by inspection of the patient, especially his chest.

Q. What is meant by clinical signs of TB?

A. The clinical signs may, in addition to the physical signs which are heard on thumping the chest and listening through the stethoscope, etc., include the symptoms that the patient has or had, the result of X-ray examination, etc.

For messy jobs!

WHENEVER a messy job looms, that's the time for "Invisible Gloves". You don them by simply applying a protective film of "Protek" cream, one of the handiest products of chemical research.

The ladies like "Protek" too. They put it on before cleaning, painting, polishing; then rinse it and all dirt off quickly with water, when the job is done.

"Protek" is just another instance of the way in which chemistry works seeming wonders, easing so many of our daily burdens with bright new products.

Hands clean in a jiffy!

SERVING CANADIANS THROUGH CHEMISTRY

Looking
Ahead

with a new rat-killer...
poison for poison ivy...sunburn for
hens...and dynamite for ditches.

Rats are smart. They just won't eat anything that tastes as if it might be poison. Now man is going after them with a new chemical called ANTU, so potent that a millionth of a pound can kill a rat, and the rats don't seem to notice the taste.

Now we're set to give Poison Ivy and Poison Oak, so long a scourge to the unwary, a dose of their own medicine! They'll be poisoned with AMMATE, a new and powerful chemical position that makes them wither up and die. One or two lbs. of AMMATE will clear a patch 100 square feet in area.

Remember CEL-O-GLASS... the flexible cellulose-acetate glass substitute which many farmers used before the war, to get egg-producing ultra-violet rays into their hen-houses? Well, it's coming back soon to civilian life, complete with a 5-year performance guarantee. CEL-O-GLASS not only brings in sun and keeps out cold. It eliminates breakage costs as well.

Someone might well coin the phrase, "a ditch in time saves nine men's time", or words to that effect, especially since ditching with dynamite has now become a science. Farmers, as well as explosives engineers, are putting explosives to work in this way more and more. And in doing it they save labour, time and expense.

Further information on any of these products is obtainable by writing "Looking Ahead", C-I-L, P.O. Box 10, Montreal, P.Q.

Bellevue Lions To Give Financial Aid To Students

The Bellevue Lions have set up a fund of four hundred dollars for 1946-7 to provide some financial assistance to students of the Bellevue Hillcrest School District who may need help in securing advanced education elsewhere. Any student in this district who wants to go to University, Business College, Technical school or School of Nursing but is handicapped by lack of sufficient money is welcome to apply for aid. A citizens selection committee will be asked to advise on the allocation of the money, taking into consideration the school records of the students and their need of assistance. The selection committee is composed of one representative from the Miners' Union, one from the school board, one from the teachers, one woman and one businessman.

Fraser McLeod Passed Away At Calgary Home

Had Held Post of Provincial Boiler Inspector For Past 16 Years; Funeral Held on Monday.

Death came to Simon Fraser McLeod, 65, at his Calgary home on Friday morning.

Deceased was very well known throughout the province as he had been provincial government boiler inspector for the past 16 years. Many of his earlier years were spent right in Coleman where his parents resided. His mother predeceased him some years ago but his father, Mr. A. W. H. McLeod, still resides at his Fourth street home.

Mr. McLeod was born in Westville, N.S., and moved to Rossland, B.C., in 1908. Later he moved to Coleman, Lethbridge and Red Deer. He had been in Calgary for the past eight years.

He was a master mechanic, chief engineer and had held the post of provincial boiler inspector for the past 16 years.

He was a member of the Engineering Institute of Canada, Summit lodge, A.F. and A.M., Oddfellows lodge at Coleman and of Central United church.

He is survived by his wife, Agnes; two daughters, Mrs. David Balfour and Mrs. Alwyn Rydout, both of Calgary; two sons, Robert, Lake Louise; Howard, Calgary; four grandchildren; two brothers, Herdman, Cadomin, Alberta; Rodger, Edson, and his father, A. W. H. McLeod, of Coleman.

Mr. and Mrs. William Hoggan, the former a brother of Mrs. McLeod, travelled to Calgary on Sunday afternoon to attend the funeral which was held on Monday. Also attending were Mrs. Margaret Antle, sister to Mrs. McLeod, and Mrs. Anna Vangotsinoven, of Blairmore, a niece.

Mr. McLeod accompanied Mr. and Mrs. Hoggan to Calgary to attend the funeral of his son.

Ed. Hoggan and J. H. Kapakla attended the funeral on Monday of the late Fraser McLeod.

Funeral Of W. J. Bartlett Held On Sunday

Many Friends In Attendance; Ministers Pay Tribute To His Memory; Interment Took Place In Blairmore Union Cemetery.

Many citizens of Blairmore and adjoining towns gathered at the funeral of W. J. Bartlett, editor of the Blairmore Enterprise for the past 34 years, which was held from Crows Nest Undertaking Parlors on Sunday afternoon at 3:30 o'clock.

The Elks lodge attended as a body and led the funeral procession from the Undertaking parlors to Central United church where services were conducted by Rev. J. McKelvey, assisted by Rev. A. E. Larkie, former minister at Blairmore and now at Macleod.

Hymns sung included "Lead Kindly Light," "Rock of Ages" and "Guide Me, O Thou Great Jehovah," all of which were favorites of deceased.

Tribute was paid deceased by both ministers. Mr. Bartlett had been one of the pioneers of the Crows Nest Pass. By the very nature of his work he had striven, in his younger days, to make it a better place in which to live. He had known the joys and sorrows of many citizens of the community.

The graveside service was conducted by Rev. McKelvey, the Elks' service being conducted by George Meffan. Pallbearers included A. R. Bourne, A. McKay, C. A. Freeman, C. R. Coover, A. Fantin and W. Sandall, members of the Blairmore Elks Lodge of which deceased had been a member since its inception in 1924.

Honorary pallbearers included J. Angus MacDonald, Jas. F. Smith, H. Pinkney, H. Ugham, J. R. McLeod, and A. Balloch.

Family members attending from a distance included Mrs. Bartlett's son and daughter-in-law, Mr. and Mrs. Victor Law; and her brothers, Harry, William and Arthur Fenwick, all of Crossfield district.

Also in attendance were H. T. Halliwell, of Macleod Gazette, and Mr. and Mrs. George McRae and Mr. and Mrs. R. Donaldson, of Mid-West Paper Sales, Lethbridge.

STAMPEDE NOTES

The coal companies have swung their support in behind the Stampede committee and timber for building chutes, corrals, etc., have been secured gratis. Contracting firms are also in there with their support by providing trucks for transporting the timber to the field.

A roads and parking committee comprised of Sam Sagoff, Louis Salvador, Herb. Hewitt and Wilf Dutil has been appointed. It is planned to bring a caterpillar into play to widen the road leading to the sports field sufficiently wide to allow two cars to pass. At the present time it is only sufficiently wide to allow one car to travel over it at one time. While the 'cat' is available it is possible that it may be used to take part off the hill at the centre of the road leading past the tennis courts to the field.

The long flat area opposite the Percy Dickieson residence will be cleared of rocks and marked into a parking zone. A parking zone will also be provided at the eastern side of the sports field.

It is proposed to have one way roads. Incoming cars will use the road at the tennis courts. Out-going cars will take the road which leads to the International office. Signs and guides will direct traffic.

The admission fee will be \$1 for adults and 50 cents for children over 12 years.

A circular letter will be sent to every household in town making clear the necessity for community support for this project if they desire to have winter recreation for the children of Coleman. The skating arena has deteriorated to the point that it is no longer in a safe condition for community activity.

A street parade has been arranged. Prizes will be awarded the best dressed cowboy, best dressed cowgirl, best decorated float, etc.

It is planned to have a brass band and the Coleman Pipe band in attendance during the day.

There will be a carnival on Friday and Saturday nights.

Stay with us, we expect to have additional notes next week.

The Rev. William Grazer Rector and Rural Dean of Yorkton Sask., has been appointed to St. Alban's Parish.

MIETTE HOT SPRINGS POPULAR CAMPING PLACE

Miette Hot Springs in Jasper National Park, Alberta, is one of the most popular camping places in the Canadian Rockies. Whether it is because of the lure of the Hot Mineral Baths or because of its superb scenic setting, this campground seems to have a special appeal to those who like to spend a vacation under canvas. It is 39 miles from the town of Jasper and is accessible to motorists by a good road linked with the Jasper-Edmonton highway at Pocatontas. It has been equipped by the National Parks Administra-

tion with kitchens, tables, benches, stoves, water supply, electric lights, and modern sanitary facilities. Additional improvements to this campsite are under consideration and will be executed as the need for more accommodation arises.

Other similarly equipped campsites in Jasper National Park are Cottonwood Creek Auto Camp and Patricia Lake Auto Camp, both within a few miles of Jasper town. All of these campsites are divided into lots approximately 25 by 40 feet, allowing ample space for each car. Visitors are able to enjoy some modern conveniences such as electric lights and running water and at the same time satisfy that natural desire to live out of doors in the summer time. The stores in Jasper town are well stocked with supplies, so that campers, except those arriving late in the evening or on Sunday, have no need to worry about the food problem; besides, restaurants in Jasper are open at all hours. Campers should, however, bring along with them a tent or a cabin trailer, cooking utensils, blankets and camp cots. If they are travelling in the spring or late summer they should also have with

them some warm outing clothes, because the nights are cool in the mountains at that time of year.

In addition to these campsites there are three equipped picnic grounds located at Athabasca Falls 20 miles south of Jasper, Jonas Creek 48 miles south of Jasper, and Columbia Ice Fields 67 miles south of Jasper along the famous Banff-Jasper Highway. They are equipped with open air kitchens, stoves, tables, benches, open air fireplaces and sanitary facilities.

The campsites in Jasper and other national parks in Canada are likely to be used to capacity this summer if the forecasts for the 1946 tourist season prove accurate. For those who are unable to obtain hotel or bungalow accommodation a camping holiday may make the difference between vacationing in the mountains this year or waiting for the summer of 1947 to realize their long cherished hope. For those who prefer to spend their vacation under canvas the campgrounds in Canada's national parks will always have a special appeal because of their unique settings and the care with which they are administered.

THEATRE NOTES

SIX NEW SONGS STUD 'STATE FAIR'

Six new songs by Richard Rodgers and Oscar Hammerstein II, tune-team that set all America singing with their "Oklahoma" and "Carousel" hits, are featured in the 20th Century Fox Technicolor musical "State Fair," which stars Dana Andrews, Jeanne Crain, Dick Haymes and Vivian Blaine, and opens Saturday at Coles theatre.

The new songs include "That's For Me," "It Might As Well Be Spring," "It's A Grand Night For Singing," "Our State Fair," "All I Owe Iowa" and "Isn't It Kinda Fun." Said to be heading for top popularity, the songs are deftly woven into the action of the screen play which Oscar Hammerstein also penned.

"State Fair" was directed by Walter Lang and produced by William Perleberg.

ANCIENT GREECE IS MOVIE LOCALE

"Night in Paradise," Universal's fabulous picture of ancient Greece

and produced in Technicolor by Walter Wagner, comes Saturday to the Palace theatre. Merle Oberon and Turhan Bey are co-starred. In the supporting cast are Thomas Gomez, Gale Sondergaard, Ray Collins, Ernest Trues, George Dolenz and Jerome Cowan.

Adapted by Emmet Larvey from the novel "Peacock's Feather" by George S. Hellman, "Night in Paradise" tells the story of Aesop, the fable inventor, who falls in love with a Persian Princess. Miss Oberon has the latter role. Bey appears as Aesop. Gomez portrays King Croesus.

Arthur Lubin directed the spectacular production.

Advertising acts as a tonic to any head of business enterprise—

BE FIRM! Always insist on Maxwell House Coffee. It's Radiant-Roasted by a special process that captures all the extra flavor and goodness of the superb Maxwell House blend.

TAKE PRIDE IN ALBERTA!

Natural GAS

Brings Convenience to Alberta's Homes and Economy to Her Industries

ALBERTA—the land with the best stocked basement in the British Empire—for millions of years ago, Nature unwittingly stored in the earth beneath this province a veritable treasure-house of fuel in its most convenient form—NATURAL GAS. The formation of our natural gas is still a matter of geological opinion; but its existence as a vital factor in Alberta's prosperity is a fact.

Settlers in the Medicine Hat district discovered natural gas in 1885 when drilling for water. Today, a thriving city of 10,000 persons, and the glass, tile, brick and pottery industries at nearby Redcliffe are served from a gas field 90 miles square. And what Natural Gas did for Medicine Hat it also did for many other Alberta towns and cities. Since that first accidental discovery, new fields have been proven in many parts of the province. At the present time a network of pipe lines serves almost 50,000 homes in four cities and 22 towns. This summer additional lines will be extended to serve Camrose, Wetaskiwin, Ponoka, Lacombe and Red Deer.

ALBERTA HAS VAST RESERVES

Wastage, so prevalent during the pioneering years of natural gas development in Alberta, has been curbed, and today the province takes inventory of the treasure in its basement. The inventory shows that we have greater reserves of gas than any other similar area in the British Empire. Nearly a thousand billion cubic feet, enough to last 50 to 100 years are already in prospect from proven fields at Viking-Kinella, Turner Valley, Foremost and Bow Island. Other vast reserves, not yet accurately tested, are in prospect from the Stevieville, Dead Horse Coulee, Eagle Butte, Jumping Pound and Pelican fields.

WE HAVE A FOUNDATION FOR PROSPERITY

To what advantage Alberta uses this treasure of Natural Gas in its basement is a matter of enterprise—a matter of our ability to sell this product to industrialists clamoring for cheap convenient fuel. Already, Natural Gas has made Medicine Hat and Redcliffe an industrial centre; the Dominion Government has recognized the value of economical fuel and the properties contained in the gas by locating the Alberta Nitrogen Products Plant near Calgary. Indeed, this is only a beginning: more and more manufacturing firms are looking towards Alberta because the use of Natural Gas will permit them to produce products and sell those products on the nation's markets in spite of heavy freight rates. This increased industrial activity will mean a growing population; more jobs, and a steadier income for our citizens.

Gas Transmission lines	1,161 miles
Lines under construction	106 miles
Number of Customers served	50,000
Percentage of homes using Gas in Areas Served	95%
Amount of Gas used in 1945 in M.C.F.'s (1,000 cubic feet)	24,215,000

Alberta's well-stocked basement may well become the foundation for Alberta's continued prosperity.

WORLD HAPPENINGS
BRIEFLY TOLD

The Duchess of Richmond, Canadian Pacific Steamships liner, has been returned to its owners by the British ministry of transport.

An electronic soap dispenser which automatically squirts liquid soap when the user's hands break a beam of light, has been developed.

Health Minister Aneurin Bevin said recently that the government is going to put German prisoners "without limit" to work in the brickfields.

The Pacific's disastrous tidal wave of April 1, killed 175 persons in the Hawaiian Islands, Clarence F. Rowland, Red Cross relief director, said.

Thirty-two Royal Navy minesweepers are being transferred to the Italian navy to finish the job of sweeping mines laid in the Mediterranean during the war.

Miners at Worsop, England, are to build an altar of coal, born from their own pit, in the local parish church. Around it will be six panels depicting life below ground.

Almost 850,000 baby chicks, valued at \$115,218, were exported from Canada during the calendar year 1945. With the exception of 12,888 chicks, all were shipped to the United States.

When the King and Queen and the two Princesses go to South Africa next year they will travel in Britain's new battleship Vanguard, launched by Princess Elizabeth in December, 1944.

Soviet civil aviation development during the next five years aims at increasing traffic to 17 times the pre-war level by 1950, it was announced at a scientific and technical conference.

Beauty Canada

A Wide-Reaching Campaign Is Now Under Way

Canada's greatest clean-up, paint-up, plant-up campaign is well under way with plenty of indications that 1946 will chalk up the most successful beautification drive in Canadian history to date.

Beauty Canada by Beautifying your Community" is the slogan of the Junior Chamber of Commerce and Boards of Trade who are sponsoring the campaign, and some 50 communities from coast to coast have adopted the watchword to spark individual drives.

Cities, towns and villages from Halifax to Vancouver, ranging in size from Montreal to Alton, Ont. (Pop. 396) have joined in Canada's first national beautification campaign. Canada as a whole cannot fail to benefit from the continent-wide campaign, but those communities which will benefit most are those whose residents are putting most into the drive.

The purpose of the campaign is to make as many Canadian communities as possible cleaner, healthier, more attractive, efficient and prosperous. With this is the desire to prepare the cities, towns and municipalities of Canada for a bumper tourist year in the realization that the tourist trade is one of Canada's biggest businesses. As outlined by the Canadian Junior Chamber of Commerce, the organization supplying over-all direction to the campaign, here are some of the advantages to be derived from civic beautification.

Community spirit is developed as all classes of people learn how to work better together at a common project.

Better citizenship results from increased respect for clean and attractive property and individual participation in better community house-keeping.

Fire losses are reduced when accumulation of wastes and rubbish are removed, thereby eliminating the causes of many destructive fires.

Vacant grounds are improved. Breeding places for disease are routed up and destroyed. War is declared on mosquitoes, flies, rats, roaches and other pests.

Safety is promoted when treacherous stairs, porches, sidewalks, and railings are repaired and painted for better visibility at night.

Morale is improved in factories and office buildings which have been cleaned up and painted. The same applies to the individual morale when homes are beautified inside and out.

The community as a whole becomes a more desirable place in which to live; and a more attractive place for tourists to visit.

Business is stimulated. A clean up campaign starts repairs, modernization of property and building activity.

WESTERN LUMBER FOR EAST

Specia' inducement has been offered to saw mills in Manitoba, Saskatchewan, Alberta and southern British Columbia to ship some types of lumber to Ontario, Reconstruction Minister Howe said in the Commons. Mr. Howe said the action applied to "two by eight and wider rough dimensions lumber produced in any quantity in Ontario."

Customers are usually willing to pay more for eggs that are always clean, or uniform size and color, and strong in the shell. Poultrymen should remember this.

WINNIPEG MARKSMEN BAGGING PIGEONS—The bald pate of a Winnipeg bank manager was hit when a pigeon dropped an egg with a "near miss" on the nest. The banker fired his carter, the caretaker appealed to police, Sgt. C. N. Tangstedt shot down the "bomber", and the caretaker got his job back. Now Winnipeg marksmen are bagging birds at the rate of 50 a day.

INJURED IN HAYRIDE, MAY NOT WALK AGAIN—Theresa Grondin, 16-year-old schoolgirl was one of some 40 young people on a hay-ride party in Windsor, Ont., which ended with 11 in the hospital following a collision between an automobile and wagon bearing the hay-ride party. Doctors had little hope that she will ever walk again because of spinal injuries which may bring permanent paralysis to her lower limbs.

Designing Cartoons

Much Work Necessary In Preparing Animated Films

Cartoons have long been familiar to all movie-goers, but few of us realize the immense amount of work involved in making them. It is a slow process, demanding numerous careful drawings to create a smooth animated effect.

On a recent trip to the National Film Board, we dropped in to see the animation department in operation. They were at work on a new cartoon, the script of which called for a man running down a street. The background of houses and shops along the street was painted on a large card. A series of drawings of the man in different stages of running were prepared on a set of celluloid cards.

These celluloids were placed over the street background card, and the background could, of course, be seen through the celluloid. The animation camera photographed a film frame of the man in one position, the celluloid card was changed to show the man in the next position, another film frame was photographed, and so on until the man had run down the street. While the celluloids were being changed, the large background was moved very slightly in the opposite direction to the one in which the man was running, to help create the illusion of movement.

The same painstaking effort goes into every action a figure or an object makes in a cartoon, but despite the hours of work involved, artists and their work fascinating.

Talk English

Irish Tongue Appears To Be On The Wane In Ire

The sad news for the lovers of the native Irish tongue is that its use is dwindling despite all efforts of the Government to stimulate it.

The Dail (Eire's Parliament) heard Premier de Valera admit as much. He told members influences against the language—radio, newspapers and movies—were strong, but must be faced.

Education Minister Derrig said that people in Irish-speaking areas were conscious of the fact they were living in poor and barren districts and might have to leave them for economic reasons. Therefore they found it essential to know English.

New Vessel Launched

Was Sacked Athabaskan Destroyer Lost In English Channel

Canada's newest warship, the tribal class destroyer Athabaskan, was launched, bearing the name of an other Canadian destroyer lost in a sea battle in the English Channel.

The new fighting ship was sent down the ways with the blessing of Mrs. J. H. Stubbs, widow of Lt. Cmdr. John Hamilton Stubbs, who lost his life when his ship, the old Athabaskan, was split by a German torpedo and sunk two years ago.

Mrs. Stubbs went to Halifax from her home in Victoria to take the leading part in the launching of the ship named to commemorate the vessel in which her husband fought.

Will Be Milling Ore

The Giant Yellowknife Is Now Nearing Production Stage

Giant Yellowknife, N.W.T., is now planned to bring it into production the annual report of Bear Exploration and Radium Limited, announced. Giant Yellowknife is one of the company's main assets. Present plans call for Giant Yellowknife to start milling ore by the end of 1947, with initial capacity 500 tons daily. The mill is being laid out.

The report refers to plans of the Dominion Government to construct a 25,000 horsepower development in the Yellowknife area and plan of the Alberta Government to build a road into the field.

A man weighs about 12 ounces less at either the North or South Pole than he does at the equator.

TOPICS OF VITAL INTEREST

TONGUE IMPORTANT DISEASE INDICATOR

Years ago a doctor's observation and study of a patient's tongue were an important part of nearly every physical examination.

"Let me see your tongue," the old-time physician would ask his patient, and from its appearance and color he could usually make an accurate diagnosis. He was quick to recognize the strawberry tongue of scarlet fever, the shrivelled tongue of dysentery and the brown, dry tongue of typhoid fever.

"Newer diagnostic methods and increased laboratory facilities have supplanted to some extent such detailed observation," says Dr. Russell A. Sage, of Indianapolis, but he adds that despite all the scientific advancements the modern physician can still rely on the tongue as an important indicator of many diseases.

Writing in the Archives of Otolaryngology, published by the American Medical Association, Dr. Sage tells how nature has adapted the tongue of animals to meet individual requirements. In the muskellunge, for example, toothlike appendages are present which enable the big fish to hold his prey while he turns and scales it, and in the cow the "nonskid" surface of the tongue enables the animal to grasp its grassy food better.

In man, sores of the tongue are commonly found on the surface or covering tissue which transmits sensations to the brain. Changes of temperature, touch sensations and the ability to perceive the four basic flavours—salt, sour, bitter and sweet—are the primary functions of the tongue-covering membrane.

Generalized nervous disorders may be shown by certain misbehaviors of the tongue," Dr. Sage says, citing as examples the tremors seen in hyperthyroidism, the clumsiness of the tongue in decreased thyroid function and its "purposeless movements" in chorea or St. Vitus's dance.

In anemia, where the number of red blood cells or the amount of hemoglobin in the blood is reduced below normal, the tongue becomes pale.

A sick tongue, Dr. Sage says, usually means vitamin deficiency. A coated tongue often has digestive trouble. It may be a local condition due to lack of oral cleanliness," the author writes.

Edema or swelling of the tongue is due to infection or allergy. It often occurs in persons who have eaten fish, walnuts or chocolate, and it may result from bites and stings of insects or other injury.

An inflamed tongue might be caused by irritation from a jagged tooth or by an infection of the taste buds, while a burning tongue is usually associated with various forms of anemia and vitamin deficiencies. A poor fitting denture or excessive smoking may also cause a burning sensation of the tongue.

Vitamin deficiencies, due to lack of riboflavin and to lack of niacin (the cause of pellagra), bring on an inflammation of the tongue.

A "geographic tongue", in which the surface is marked by long, deep furrows, instead of being smooth, is a common condition. Grayish thickened patches on the tongue surface are noticed. The condition is "relatively harmless, but causes a great deal of worry in the mind of the patient," Dr. Sage says.

Ulcers of the tongue occur from infection and chronic irritation, and one of the most distressing tongue afflictions is the common cancer sore. There are several types, and it is believed that indigestion, infected tonsils, adenoids and uncleanness of the mouth and teeth are contributing causes to this unpleasant and painful mouth condition.

THIS PROGRESS

The Vancouver Sun says in this enlightened age, most people have little use for common or garden fire. Electricity is more scientific and soon we shall do our cooking with disgruntled atoms. Sulphur is gone badly from our matches and our spring tonics. Time marches on.

Nearly half of the world's land area is largely uninhabitable because of deserts, mountains, ice or tundra.

ONE OF VERY FEW—Vera Clegg of Yellowknife, in Canada's far-flung Northwest Territories, takes home a few dollars' worth of groceries, for prices on food in the booming little goldrush town include \$1.50 for a dozen eggs, 25 cents for a loaf of bread. Vera is one of the few white women who have ventured into this gold camp, 600 miles north of the nearest city, Edmonton.

The ancients believed that diamonds were formed by lightning.

Will Be Missed

Lord Halifax Endured Himself To People Of United States

Retiring after five strenuous years in wartime Washington, Lord Halifax can look back upon a diplomatic mission as notable as that of Rt. Hon. James Bryce, of whom it was said that he knew the American constitution better than any American. Lord Halifax knows America better than ninety-nine per cent. of its population because he has personally visited each of the forty-eight states.

The ambassador is about to retire from public life. The war brought him and his family tragic bereavement and he has had a long term of service to the state. He has held many high offices in British Cabinets. He has been Viceroy of India, where, with Mahatma Gandhi, a man like himself, of profound moral and religious convictions, he sought understanding so that the vast peninsula's political aspirations might be met. He was Foreign Minister at the time of Munich and finally ambassador at Washington where he had to live down the odium which the Munich pact had created against him.

How successfully he followed in Lord Lothian's steps is evident from the appreciation accorded him in the United States press this week. A typical comment is—"He leaves Washington with the respect and admiration of all in the government and with the record of a hard task brilliantly performed for his own people. He has shown us that the typical Englishman is not too dissimilar from the typical American, holding the same fears, the same high hopes and basically the same loyalties to the same principles and standards."

Lord Halifax himself put the parallel even better. "We want," he said, "the same things in the end."—Ottawa Citizen.

FINE CUT

OUR COMPLETE SHORT STORY—

JUST ANOTHER EVENING

By EULALIE WEEKS

Copyright
Wheeler Newspaper Syndicate

"LISTEN, the more you do for people, the less thanks you get! In other words, my friend, if Connie has gotten herself into another mess and thinks little Miss Mary is going to come to the rescue, she's all wrong!"

"Don't be a nut, Mary! You'd have a good time, Connie says this chap is really keen."

"Then why isn't Connie keeping her date with him?"

"I told you! This other fellow that she says she's really in love with just got back. Bill and I will be there and the six of us could have a swell time."

"Not me, I'm tired of blind dates."

"Say, are you still carrying the torch for that soldier?"

Mary's heart always did a double-flip at the very thought of "that soldier". Nancy was referring to two years before when Mary had met Mark Hemming at a party and danced with him practically the entire evening. Was it possible to fall head-over-heels in love with a person and have that person not respond at all? She thought Mark had been all hers, sharing her and yet, when it came time to part, his leave-taking had been casual not even with mention of writing. The next day he went overseas.

"Quit your day-dreaming!" Nancy interrupted. "Be a sport, Mary, and come along tonight."

"Do you know the other men? What's Connie's beau like?"

"I have no idea. You'll come?"

Mary resigned herself to another evening.

As the girls watched the approach of three escorts, Mary's expression of unconcern changed to one of shocked incredulity. Introductions were just a blur until the words "Mark Hemming" started her heart racing madly. Automatically, Mary moved to meet Mark but she was blocked by Connie who, linking her arm in his, exclaimed:

"Let's go; Saturday night, not a care in the world..."

So Mark Hemming was the man Connie had chosen as her own! Mary blushed at the avowal that she had almost made and resolved to be lively and gay, regardless of how she felt. When she caught Mark staring, she was thankful she was able to smile back amiably. When the couples started to dance, she managed to avoid dancing with Mark, concentrated all her attention on the chap called Jimmie. Dancing with Bill, she was amused to see Connie and Jimmie waltzing with ill-concealed mutual pleasure. The flirt that Connie was! How could she be so heartless to Mark if she expected to win him? Nancy's suggestion that they freshen their "warpaint" came as a welcome relief to Mary and, besides, the boys were beginning to argue the pros and cons of war-time engagements or marriages. They left the table just as Mark stated firmly, "No man had a right to involve another person before he went overseas."

No, thought Mary, you might have been saddled to me if you hadn't been smart...

As the girls applied lipstick, Connie said to Mary, "you didn't want to come, eh, Mary? I must say you seem to be enjoying yourself! You're trying so hard to make a hit with Jimmie you must like him."

"Oh, he's alright."

"Well, I like that!"

"What's the difference whether I like Jimmie or not?"

"What's the difference? He just happens to be the man I intend to marry!"

Mary was stunned. "But you're with Mark!"

"Don't be silly! I paired off with Mark Hemming to make Jimmie jealous. I saw Mark only once before in my life—he's O.K., but Jim's the boy for Connie!" Mary's heart was pounding. "How did Mark happen to come?"

"Don't you remember we met him at a party a couple of years ago? He called at the office—said remembering when I worked but couldn't find any of the other girls."

"He said that?" "Mary!" Nancy was practically shrieking. "Is he your secret passion? What a coincidence!"

"What are you two talking about?" Connie demanded.

Nancy tried to explain.

Why didn't he say he wanted to find you?" Connie asked Mary. "He kept trying to say something about a brunette with blue eyes..."

Mary didn't wait to hear more from Connie, but with a glistening smile and sparkling eyes she made her way back to the table.

"I'd like to dance with you now, Mark Hemming..." This has been postponed long enough!"

In the shelter of Mark's arms, Mary felt that he knew that something wrong had been made right and that he, too, agreed there would be time for explanation later. 2673

Coal Output

Canadian Collieries Show An Increase In February

Canadian collieries produced 1,638,333 tons of coal in February, an increase of nine per cent. over the 1,504,759 tons mined in February, 1943, the Dominion Bureau of Statistics reports. January output of 1,816,640 tons had shown a seven per cent. gain over the like month of 1943.

February output included 1,097,191 tons of bituminous coal, 367,413 tons of sub-bituminous coal and 173,729 tons of lignite coal. Alberta produced 831,382 tons; Nova Scotia, 455,612 tons; Saskatchewan, 173,729 tons; British Columbia, 154,316 tons and New Brunswick, 23,294 tons.

Imports totalled 1,302,501 tons, compared with 175,770 in February, 1945, while exports amounted to 43,656 tons against 72,303.

Canada's Farm Lands

Some Interesting Figures Given By Agricultural Economics Official

Although Canada has a land area of 3,666,566 square miles, only about 549,600 square miles, or 16 per cent., are presently occupied as agricultural land and have agricultural potentialities in some sense. Roughly the half of that area is in farms. The other half includes large areas that can be brought under cultivation only if Canada experiences a marked increase in population or greatly expanded export markets.

The above figures and prospects for additional settlement were given recently by Dr. J. F. Booth, of the agricultural economics division, Dominion Department of Agriculture, at the Chicago conference on farm tenure—Kitchener Record.

GARDEN NOTES

Spread Out Sowings

Perhaps the two commonest mistakes of the average gardener, especially the one of limited experience, is planting far too much too soon and not planting enough in June and early July. During the first warm weeks of spring practically every human being has the urge to get out and dig. He rushes to the nearest seed store, gets supplies and is liable to put in a whole lot of things which should never be planted until the soil and air are warm up permanently.

When this course has been followed there are usually heavy losses, losses mainly of wasted labor. Some things like peas, grass seed and a few of the other harder flowers and vegetables don't mind quite a lot of cold and wet, but with the great majority of plants this is not the case. Many vegetables especially must be grown quickly if they are to be tender and crisp, and there is nothing to be gained by rushing the season.

This too-early planting, also, has another disadvantage. Usually all seed or space is used up too soon and even if weather is favorable the result is too many vegetables ready for the table in July, not nearly enough coming along in August and September. The experienced gardener never makes that mistake. He will always divide his seed into at least three parts, risking the first a little ahead of the regular planting time, putting in the second about the normal time and saving the last until at least two to three weeks after that. With a bit of luck this will give him a continuous supply of the very freshest vegetables right through the season.

Cultivation Important

Cultivation in June will kill weeds which might become really troublesome in July, and it will break up soil which would bake hard and be impossible to work after the sun really turns warm. If the work is kept regularly mown in June, at least once a week in the moist parts of Canada, then we will really have something worth taking the neighbors out to see later on. The old warning of a stitch in time saving nine really holds good for gardening too and especially so with such jobs as weeding, cultivating and thinning and, last but not least, for protective steps against disease or pests.

It is wise, say the professionals, to have some ready prepared dust or spray materials handy. These should be used at the first sign of damage. Indeed with some things like potatoes regular dusting or spraying in advance of the bugs is strongly recommended.

MAGIC BAKING POWDER wins more users all the time by giving better baking results. Pure, dependable Magic assures you finer texture, more lusciousness

for cakes, for biscuits, for all baked dishes. Try Magic Baking Powder today and discover why it is the baking stand-by of 3 out of 4 Canadian women.

A Great Chance

Immigrants From Europe Could Do Much With Vacant Farms

One of the most pathetic sights in Manitoba is the abandoned farm. We have many of them, monuments to something Saskatchewan has more and there are others in Alberta. Something must be wrong somewhere on this problem. Maybe the provincial governments overlook the reason, or, like the people, do not know the why of the desolate farms, loaded with growth and weeds, empty barns and dwellings. Even Ontario supposedly a banner province, acknowledges eight thousand vacant farms. It would be a great revelation to all Canadians today if Norwegians, Belgians or Danes were permitted to enter this Dominion and to take over the vacant farms. And what they would do with them would be a better lesson in agriculture than any college could give to young workers of the soil.—Brandon Sun.

JUST IN ONE WAY

The average person takes two or three quarts of food and drink in through his mouth every day. But in the same time he takes into his lungs 10,000 to 12,000 quarts of whatever atmosphere happens to be around him.

SELECTED RECIPES

When Spring fever strikes and the appetite goes into a slump, a new dish is better than a long drive to a gourmet's delight when served as sauce or incorporated in one of the many desert dishes that are typical of spring. Here is rhubarb in a pudding that will be just your dish.

Rhubarb Crisp
1 1/2 cup butter
1 cup sugar
2 eggs
1/2 teaspoon nutmeg
1/2 teaspoon vanilla
1 1/2 cups small toasted bread cubes
2 cups corn flakes
4 cups diced fresh rhubarb
1/2 cup sugar
Blend butter and 1/2 cup sugar thoroughly; add eggs and beat well. Stir in nutmeg, flavoring, bread cubes and corn flakes. Place half of mixture in buttered baking dish; arrange rhubarb evenly over top and sprinkle with 1/2 cup sugar; cover with remaining creamed mixture. Bake in a moderate oven (375 deg. F.) about 25 minutes or until rhubarb is done.
Yield: 8 servings (8 1/2-inch casserole).

Acquires Wealth

War Veteran Deluged By People Who Would Sell Him Stock

Bud Lloyd of St. John, N.B., the 30-year-old war veteran who inherited \$100,000, is finding his newly-acquired wealth and fame somewhat of a nuisance.

He is being deluged with phone calls and visitors trying to interest him in various schemes and projects. He revealed a mining stock salesman attempted to sell him stock by telephone from Toronto.

Do you have in-again, out-again ears?

CUT OUT TEA AND COFFEE

CUT OUT TEA AND COFFEE

Perhaps this happened to you when your doctor, or some wise friend, told you it would be a good idea to cut out tea and coffee...

DRINK POSTUM INSTEAD

But if someone says "Drink Postum instead," that really rings a bell!

Yes—Postum is a grand way to stop drinking tea and coffee if the caffeine in those beverages upsets your nerves, keeps you awake.

You can drink Postum any hour of the day or night—enjoy as much as you like, as strong as you like—and not miss a wink of sleep. Postum contains no caffeine, nor any other drug—can't affect heart or nerves or digestion.

Make Postum right in the cup, just by adding boiling water or hot milk. Costs less than 1¢ a serving.

Vince Janostak accompanied a carload of horses from this district to Victoria where they were to be delivered to Tom Flynn jr. While at the coast Vince plans on taking a couple of weeks holidays.

Mr. and Mrs. Archie Fraser and son Archie, jr., left on Tuesday for their new home on the outskirts of Victoria, B.C. Their friends here join in wishing them luck and happiness in their new home.

Mrs. George Snod and young daughter, of Coaldale, were the recent guests of Mr. and Mrs. John Kubin. They were enroute home from Fernie where the former had visited her parents for a few days.

Town workmen have completed building a concrete wall at the rear of the Jim Kilgannon residence on Fourth street and have improved the alleyway which had been in a dangerous condition for trucks travelling over it.

Miss Beatrice Peresini, of Blaimore, and Mr. John Hammer, of Coleman, were united in marriage at St. Anne's church, Blaimore, on Saturday morning, May 11th. The young couple left for Calgary on a honeymoon. They will reside in Coleman.

BLUE RIBBON BAKING POWDER for Delicious Cakes & Pastries

Mr. Joe Spievak is spending his vacation at Creston.

The Journal acknowledges with thanks renewal subscriptions received on Tuesday morning from Mr. J. O. C. McDonald, of Taber, and that of his daughter, Mrs. T. L. Cairns, of Wilmington, Delaware.

ENGAGEMENT

Mr. and Mrs. J. J. McIntyre announce the engagement of their eldest daughter, Mary Catherine, to Raymond Gerald Schmidt, second son of Mr. and Mrs. E. Schmidt, of Pincher Creek, the marriage to take place in Coleman, June 15.

TRANS-CANADA CAR PASSED THROUGH COLEMAN

On Friday evening about 6:30 the trans-Canada car from Louisburg, Nova Scotia, to Victoria, B.C., passed through Coleman, enroute to the coast which it expected to reach either Sunday or Monday.

The occupants were Brig. R. A. MacFarlane, of Toronto, and Ken MacGillivray, a Toronto newspaperman. The car is a 1946 Chevrolet.

Ed's Note—By pure luck we happened to be driving out to Crows Nest Lake when we drove in behind the trans-Canada car at Second street and noticed the identification sign tied to the rear of the car. We followed it to west Coleman and it did exactly what hundreds of other tourists cars have done, went straight ahead through west Coleman passing the turn which leads to British Columbia. As we turned the corner we noticed the car starting to back down the street preparatory to making the proper turn.

DANCES THURSDAY AND FRIDAY NIGHTS

Tonight Coleman Clan Donnachaidh are sponsoring their annual May 23 dance in the Community hall with Ed's orchestra in attendance. Proceeds will be used for the purchasing of equipment for the pipe band.

Tomorrow (Friday) the annual Victoria Day dance of the Canadian Legion will be held in the Community hall with Ed's orchestra supplying music.

TOM MITCHELL BUYS COAL LANDS

Tom Mitchell has purchased certain coal lands in the Lundbreck area and plans soon to leave Coleman to develop a mine.

He possesses his fireboss' certificate and plans on employing a few miners to aid him work the seam.
